

EDUCATION

Degree	Specialization	Institute	Year	CPI
B.Tech	Computer Science & Engineering	VIIT Duvvada	2023-Present	9.1
Intermediate	Physics, Chemistry, & Mathematics	Sasi Junior College	2023	9.73
SSC	-	Sri Chaitanya School	2021	10.0

PROJECTS

- **Resume Analyser** [AI Integrated Website] *live link - <https://resumeanalyser-ootk.onrender.com/>*
 - Developed an AI-powered Resume Analyzer using Node.js and Express.js to analyze resumes and generate ATS-style feedback and skill insights.
 - Built a responsive full-stack web application using EJS, HTML, CSS, and JavaScript with features like resume upload, dynamic result rendering, and REST API integration.
 - Integrated AI APIs for resume evaluation and implemented file handling, validation, environment variable management, and deployment on Render.
- **stayNest** [Basic clone of airbnb] *live link - <https://staynest-2-4vgi.onrender.com>*
 - Developed the main application using Node.js and Express.js with EJS templates to support a full-stack listing CRUD workflow.
 - Built the main data model in listing.js and integrated it with routes to deliver create, read, update, and delete functionality.
 - Implemented the main user interface using structured views (views) and a responsive public layout, ensuring consistent navigation and layout reuse.
- **Currency Converter** [Realtime Conversion] *live link - <https://currency-converter-topaz-eight.vercel.app/>*
 - Client-side Development: Built a responsive currency converter using JavaScript, HTML5, and CSS3, implementing DOM manipulation, event handling, and cross-browser responsive UI to deliver an intuitive user experience.
 - API Integration Asynchronous Programming: Integrated real-time exchange rate retrieval via REST API calls using asynchronous Fetch/Promise handling and JSON parsing with robust error handling and input validation for accurate conversions.

INTERNSHIPS

- **INTERNPE** *26-May to 22-June 2025*
 - Developed responsive web applications including a Calculator, To-Do List, E-Commerce Website, and Connect-4 Game using HTML, CSS, JavaScript, and frontend development concepts.
 - Implemented interactive UI features, DOM manipulation, game logic, and dynamic task/product management functionalities.

ACHIEVEMENTS

- Achieved 2 rating on CodeChef through consistent competitive programming participation
- Solved 250+ coding problems on LeetCode, strengthening Data Structures and Algorithms skills

TECHNICAL SKILLS

- **Languages:** Python, C, Java, MySQL, MongoDB, JavaScript
- **Tools:** VS Code, GitHub (link - <https://github.com/hemachandu10>)
- **Web Technologies :** HTML, CSS, Node.js, Express.js

CERTIFICATIONS

- Certifications include Data Structures and Algorithms from Udemy, HTML Essentials, CSS Essentials, JavaScript Essentials-1, JavaScript Essentials-2, and Python Essentials from Cisco, along with a Web Development Internship Certificate from InternPe.
